

François Mikulski

Meursault 1^{er} cru Les Charmes – Vieille Vigne de 1913

Vine

The Charmes appellation represents an area of 31 hectares on the Municipality of Meursault. The Meursault 1er Cru les Charmes Vieille Vigne vineyard which we have been farming since 1992, uses the metayage system (50% of the harvest for the owner, 50% of the harvest for the tenant). Its surface area is 0.18 ha.

This vineyard was planted by grandfather in 1913. The grape variety is 100% chardonnay. Annual production: about 500 litres in bottles and magnums.

The soil

The sub-soil is made of basement of bedrock..

Ageing

Our barrel-aged wine allows the expression of our Terroir to be preserved.

Tasting

It's a very flavourful and concentrated wine with all the markings of a Grand Cru and which should be kept in the cellar to age.

Coupe géologique
