

François Mikulski

Meursault 1^{er} cru Goutte d'Or

Vine

The Goutte d'Or appellation represents a surface area of 5 hectares in the Commune of Meursault.

The Meursault Premier Cru les Goutte d'Or vineyard that we have cultivated since 1992 on a sharecropping basis (50% of the crop for the owner, 50% for the tenant) belongs to the Boillot family. It covers an area of 0.2 hectares. The average age of the vines is 40 years. The vines are 100% Chardonnay. Annual production: around 1,000 bottles. The vines are cultivated using non-certified organic methods.

The soil

The subsoil consists of a base of rock plates.

Ageing

By ageing with just 20% in new barrels and the rest in barrels that have held one, two or three wines, we preserve the unique character of the terroir.

Tasting

In the mouth it has juice and energy, honey, poached white fruits, swing, movement, and dynamism, revealing citrus fruits, guava, lime, and passion fruit. Nourishing, long, and straight, it is a great wine.
